THE IMMIGRATION AMENDMENT.

Delegate Kuhio in his letter to Bulletin readers speaks with almost certainty of the passage of the amendment to the immigration law that will allow Hawaii to obtain European immigrants.

We hope the Delegate is wholly correct, but there is reason to believe that the measure will have to face severe opposition.

In this connection the people of Hawaii, interested in securing European labor for the islands, should bear in mind the fact that the opposition in Washington will find particular aid and comfort in the published statements from Hawaii that are obviously intended to discredit the movement.

The representatives of the Territory while facing a general opposition from antagonistic interests of the mainland, will find quoted against them published statements that may be used as material for questioning the good faith of leading interests in the Territory. The fact that the statements are misrepresentations will not change the result.

Outside the fortification measures there is nothing before Congress today of more importance to the future of the Territory of Hawaii than this immigration amendment.

It should have a unanimous backing from Hawaii, for the opposition may be strong.

THE WAR TALK.

There can be no doubt that the "yellow" of the mainland are doing their utmost to work up a war scare. Every movement of a military or naval officer is followed with its possible reference to war. Shipments of arms and munitions, which under ordinary conditions would not warrant passing attention, are recorded in large type.

The unpleasant feature about this is that it directs the thought of the people to channels that might better be avoided. For, when the sober judgment of the country is appealed to, the inevitable response is that there is no prospect of war between the United States and Japan, although there may be happenings in China that will bring about armed intervention of some kind.

Where Hawaii suffers is in the fear which constant reading of war alarms engenders in people who might otherwise come to the islands for a few months' stay. They look on Hawaii as the probable center of the troubles of the Pacific, and they have a very much exaggerated idea of the troubles.

The profits this Territory gains are to be found in the serious consideration of defenses and harbor development. The delays of the Government have been monumental. Congress has never waked up in years gone. It appears now to have come to a fair realization of the most ordinary needs.

If the war scare will keep Congress going till it has passed a sufficient appropriation to do the work which should have been done years ago, it will have done the country a great good and Hawaii can well afford to suffer the loss and inconvenience resulting from what we are satisfied is a scare indeed.

THE COASTWISE LAW.

If it be possible to read between the lines of Delegate Kuhio's reference to his bill amending the coastwise shipping law it would appear that some of the mainland opposition to the right of citizens to travel in the steamships of any country has been withdrawn.

The Delegate says that he withdrew the original plan to include fresh fruits in the exemption list proposed. He did this because he found the opposition so strong and the promises so good so far as providing for freight was concerned.

The assumption may be an imagination, but there is just the suggestion in this statement of the situation to warrant the belief that mainland interests have come to see the

Injustice to which the traveling public that stops in Hawaii is subjected, by an ironclad law barring them from any but American ships.

The injustice is especially real when Congress in its wisdom refuses to protect American ships with a decent subsidy law.

CLARK WILL TELL HOW HARRIMAN DID HIM

WASHINGTON, D. C., Jan. 26.—Attorney General Bonaparte announced that his department will soon issue a statement as to its plans for prosecuting E. H. Harriman and the Harriman railroad system. It is intimated on high authority that when the case comes to trial William A. Clark of Montana, former Senator and one of the richest men in the world, will be the Government's star witness, and that he will tell in detail the story of the methods by which Harriman wrested from him control of the San Pedro, Los Angeles and Salt Lake road, which Clark built as an independent line.

The two men of millions fought for years, and at last the power of Harriman prevailed and Clark surrendered.

The Department of Justice is inclined to believe that the Government's case is based on the contract between Harriman and Clark for pooling the Southern Pacific and San Pedro roads and suppressing competition.

By telling the whole story in detail Senator Clark, it is expected, will get immunity for his own part in the transaction, and at the same time will take revenge on his enemy.

Police Commissioner Bingham, in dismissing officer L. E. Terhune of New York for perjury, scored the custom of lying in court cases by the police which he said was too common.

As a result of the recent strike in New York efforts have been made to interest Andrew Carnegie in building of model tenements.

The body of the woman found near Harrison, N. J., has been positively identified as that of Mrs. Helena Whitmore, wife of a Brooklyn motorman. The husband is held in custody as a witness.

The death of Mrs. John Van Ness Roberts from morphine poisoning in New York is said to have revealed that she was formerly known as Louise Vermelle, arrested, tried and acquitted on the charge of having swindled merchants.

James Bryce, British ambassador to the United States, will speak at the annual meeting of the New York Bar association, Jan. 24 and 25, on legislation. Joseph H. Choate will also speak.

A second all-water freight route between Boston and New York was scheduled to begin operations with the sailing of the new 4,000-ton steamship Bunker Hill from Boston.

San Francisco realty dealers report a growing demand for down town property and several important transactions are pending.

Roosevelt Asks Forts For Hawaii

WASHINGTON, D. C., Jan. 19.—Further evidence of the uneasiness felt by the Administration over the situation on the Pacific coast, and in the insular possessions of the country, was shown yesterday when the President urged several Senators who called at the White House to make sure that large appropriations were made at this session of Congress for the fortification of Hawaii.

President Roosevelt said that in his opinion Congress should provide for the rapid and complete fortification of every harbor on the Pacific coast and especially of Hawaii. In order that the country would have a naval base in case of trouble with an Eastern Power.

It is known that several of the Senators favor the fortification of Hawaii, while they are dubious over the question of spending money in building fortifications in the Philippines.

IMMIGRATION BILL IS RECOMMENDED

House Committee Makes An Unimportant Amendment

Governor Frear has received a copy of the report of the House Committee on Immigration and Naturalization on the Hawaii immigration bill, House Bill 10,568. The committee recommends the passage of the bill, with an amendment to make Section 3 read as follows:

"Section 3. That nothing herein contained shall be construed to admit to any port or place of the United States on the North American continent any alien who is not admissible under the provisions of the Act approved May 20, 1907."

This amendment makes no change in the intent of the bill. Governor Frear says, as the Territory of Hawaii does not want immigrants who are inadmissible to other parts of the United States, Hawaii is not after contract laborers.

RELATIVE MORTALITY OF BOYS AND GIRLS DEMONSTRATED.

Mount Carlo, Jan. 15.—Dr. Francis Warner of the Child Study Society says that although in 1905 57 per cent. of the births in this country were boys, the death rate among boy babies was so much higher than among the girls that of the 5-year-old children alive at that time only 43 per cent. were boys.

Further statistics quoted by Dr. Warner showed that 27 per cent. of boys born died in their first year, whereas only 22 per cent. of the girl babies succumbed in the same period.

Dr. Warner accounted for the preponderance of females over males in England and Wales by the fact that although more boy babies were born, a much larger proportion of males than females had some physical defect. From minute examination of thousands of children Dr. Warner found that 9 per cent. of the boys had some physical defect, as compared with only 7 per cent. in the girls.

The lecturer pointed out that in a children's medical ward practically all the children had some physical defect, and among these children with defects the mortality was apt to be higher in the case of the girls than of the boys. From this it was deduced that while the female sex apparently approaches closer to normality than the male, yet when abnormalities are found equally in the two sexes the lesser vitality of the girl will cause her to break down under any added strain sooner than the boy.

Dr. Warner said that whereas the male sex supplied the great majority of criminals, yet in the number of murders committed by lunacy women greatly exceeded the men, even leaving out entirely cases of infanticide. Among incorrigible criminals who had been convicted ten times or over women were more than twice as numerous as men.

STOP WOMAN AND CONSIDER

First, that almost every operation in our hospitals, performed upon women, becomes necessary because of neglect of such symptoms as Backache, Irregularities, Displacements, Pain in the Side, Dragging Sensations, Dizziness and Sleeplessness.

Second, that Lydia E. Pinkham's Vegetable Compound, made from native roots and herbs, has cured more cases of female ills than any other one medicine known. It regulates, strengthens and restores women's health and is invaluable in preparing women for child-birth and during the period of Change of Life.

Third, the great volume of unsolicited and grateful testimonials on file at the Pinkham Laboratory at Lynn, Mass., many of which are from time to time being published by special permission, give absolute evidence of the value of Lydia E. Pinkham's Vegetable Compound and Mrs. Pinkham's advice.

Lydia E. Pinkham's Vegetable Compound

For more than 30 years has been curing Female Complaints, such as Dragging Sensations, Weak Back, Falling and Displacements, Inflammation and Ulceration, and Organic Diseases, and it dissolves and expels Tumors at an early stage.

Mrs. Pinkham's Standing Invitation to Women

Women suffering from any form of female weakness are invited to write Mrs. Pinkham, Lynn, Mass. for advice. She is the Mrs. Pinkham who has been advising sick women free of charge for more than twenty years, and before that she assisted her mother-in-law, Lydia E. Pinkham in advising. Thus she is especially well qualified to guide sick women back to health. Write today, don't wait until too late.

FAREWELL RECEPTION

A farewell reception was given last night by the members of the local branch of the Salvation Army and their friends to Adjutant Anderson, who has been in charge of the rescue work here for the last four years.

A. F. Cooke, the chairman for the occasion, opened the program with appropriate remarks. Miss McAbee of Seattle, sang most pleasingly. Refreshments were served after the following program had been disposed of: Remarks, A. F. Cooke; prayer, Staff Captain Bradley; song, Miss McAbee; speech, Adjutant Anderson; address, Rev. D. W. Crane; song, Captain Baker; address, Miss Yarrow; farewell address, Adjutant Anderson; address, Staff Captain Bradley; closing remarks, A. F. Cooke; chorus, "God Be With You Till We Meet Again"; prayer; chorus, "Aloha Oe."

GOT WRONG MAN.

Editor Sheba of the Hawaii Shingo said this morning that the Advertiser made a mistake in displaying Admiral Baron Ito's photograph on the first page, in connection with the domestic scandal referred to in a mail cablegram. The officer referred to as having been dismissed from the service because of a domestic scandal, is Rear Admiral Ito, and not the hero of the Japan-China war.

Many speeches were made and an intensely interesting program of reminiscences of old Honolulu was had.
